January 16, 2025

To: Honorable Members of the New Jersey State Legislature
From: Robert A. Briant, Jr., Chairperson, New Jersey Infrastructure Bank
Subject: State Fiscal Year 2025 Second Amended Community Hazard Assistance Mitigation Program **Project Priority List**

Overview – The New Jersey Infrastructure Bank (the “I-Bank”) and the New Jersey State Office of Emergency Management in the Division of State Police in the Department of Law and Public Safety (“NJOEM”) are pleased to present the **SFY2025 2nd Amended** New Jersey Community Hazard Assistance Mitigation Program Project Priority List (the “PPL”) to the New Jersey State Legislature. The New Jersey Community Hazard Assistance Mitigation Program (“NJ CHAMP”) is a joint financing program between the I-Bank and the NJOEM.

On January 12, 2024, the NJOEM published the Project Priority List for SFY2025 identifying projects to be considered for funding in SFY2025. The New Jersey Infrastructure Trust Act, N.J.S.A. 58:11-B-1 et seq. (the “Enabling Act”) authorizes the I-Bank to amend the PPL four times during the State fiscal year (“SFY”). See section 20.5 (b)(2). This submission serves as the second such amendment for SFY2025.

The second amended PPL attached as Appendix A, is a compilation of all eligible projects that were identified for financing. The list consists of 80 hazard mitigation and resilience projects (“Projects”), including 8 additional projects since the submission of the first amended PPL in July 2024. Total estimated cost of the Projects is \$400,870,228, with an allowable loan amount equal to \$119,404,915.

Project List – Appendix A presents the list of projects in both alphabetical and prioritization rank order pursuant to NJOEM’s project prioritization methodology (the prioritization methodology established by NJOEM in consultation with the Commissioner of the New Jersey Department of Environmental Protection is the means by which limited financing program funds are distributed among eligible Projects). The detailed ranking methodologies for hazard mitigation and resilience Projects were set forth in the NJ CHAMP’s Federal FY2024 STORM Revolving Loan Fund Intended Use Plan and the SFY2025 January Report submitted by NJOEM. They are available at: <https://www.njib.gov/nj/Resilience+Bank+Publications.69>.

Thank you for your continued support of our program.
