Environmental Protection**

**TO:** Honorable Members of the New Jersey State Legislature

**FROM:** Robert A. Briant, Jr., Vice Chairman of the Board,  
New Jersey Environmental Infrastructure Trust

**SUBJECT:** State Fiscal Year 2017 Amended Interim Financing Program Project Priority List for Short-Term Funding in the New Jersey Environmental Infrastructure Financing Program

**Overview** – The New Jersey Environmental Infrastructure Trust (the “Trust”) is pleased to present to the New Jersey State Legislature, an amended Project Priority List consisting of three hundred and sixty-five (365) projects at a total estimated cost of \$3.01 billion, including nine (9) additional projects for which applications were received since March 4, 2017 for State Fiscal Year (“SFY”) 2017 in accordance with P.L. 1985, Chapter 334, as amended. This list is a complete compilation of all projects seeking financing.

**Background** – Since issuing the first loan in 1987, the Trust has partnered with the Department of Environmental Protection (“DEP”) to jointly fund and manage the annual New Jersey Environmental Infrastructure Financing Program (“NJEIFP”), which provides efficient, low-cost financing for environmental infrastructure projects. The NJEIFP leverages Federal and State Revolving Funds (“SRF”) with Trust publicly issued bonds to provide the lowest possible interest rate loans to participants for the construction of environmental infrastructure projects.

**Short-term Loan Priority List** – As part of the NJEIFP, the Trust issues short-term loans to facilitate the construction process. The Trust’s Enabling Act requires that any project receiving short-term financing must be included on the interim financing project priority list (“Priority List”) submitted to the Legislature, and must be sponsored by an eligible borrower. The Priority List for SFY2017 was submitted to the Legislature as part of the NJEIFP’s SFY2017 Priority System and Project Priority List in January, 2016 (the “January Report”). It was also submitted to the Legislature in May 2016 as part of the Trust Financing Program Base SFY2017 and Superstorm Sandy Financial Plan (the “May Report”). To provide greater flexibility to NJEIFP’s borrowers, the Trust Enabling Act was recently revised (P.L.2016, c. 30) authorizing the Trust to amend the Priority List three times during the fiscal year. This submission serves as the first such amendment.

**Projects** – The SFY2017 May Report, approved in June 2016 as ACR132, lists 357 projects on the Priority List costing \$2.9 billion. The Amended Interim Financing Program Priority List submitted herewith reflects the removal of one project, the revision of the estimated cost of 52 projects and the addition of nine (9) new projects at a total estimated additional cost of \$106 million (revisions are identified in **BOLD** and **green**). As is customary, the SFY2017 Priority List is presented as two project lists; Clean Water projects are listed in Appendix A and Drinking Water projects in Appendix B. The projects are presented alphabetically with project prioritization information. The NJEIFP’s project prioritization methodology is the means by which limited financing program funds are distributed among eligible projects. The detailed ranking methodologies for Clean Water and Drinking Water Projects are set forth in the NJEIFP’s Federal

FY2016 Intended Use Plans available at <https://www.njeit.org/program-publications>.
