6. PUBLIC COMMENTS:

Vice Chairman Briant invited comments from the public.

Adam Liebttag, President, Communication Workers of America, Local 1036 was recognized by Mr. Briant. Mr. Liebttag distributed a written submission for the record (attached as Appendix A). He commented that he was appreciative that Agenda Item 8F regarding the RFQ for Consulting Engineering Services had been struck from the Agenda. His concerns are (i) lack of clarity in certain areas of the RFQ with respect to the authority of the DEP versus the authority of the Trust to refer engineering work to the consultants

under the RFQ, (ii) the scope of the RFQ is for aspects of project application and review it is the Union's position that staff are performing all the functions covered under the RFQ making the RFQ unnecessary and (iii) There is no large flux of project applications requiring additional staffing.

Mr. Liebttag concluded that the RFQ is in appropriate and requested that the Board defer action until CWA's comments could be accommodated.

Mr. Briant noted that he appreciated Mr. Liebttag comments, that the Board will consider the CWA's comments. In addition, the Board recognized and appreciated all the hard work performed by DEP's staff and that the Resolution was pulled specifically to give the Trust and DEP more time to address the concerns raised by Mr. Liebttag.

7. UNFINISHED BUSINESS:

A. Mr. Shymon, of the NJDEP's Municipal Finance and Construction Element, reported that there are 231 active projects totaling \$1,223,559,111 and 1,197 closed projects with loans outstanding totaling \$5,601,806,637 for a grand total of 1,428 projects at \$6,825,365,748.

Re: Request for Qualifications (RFQ) for Consulting Engineering Services for the NJEIT

Dear Mr. Zimmer and Members of the Board of Directors,

On behalf of the CWA Local 1036, I submit these comments opposing the Request for Qualifications for Consulting Engineering Services for the NJEIT, listed as Agenda Item #8.F. on today's published agenda.

CWA Local 1036 is a local labor union representing 7,000 members across the state of New Jersey, the majority of whom work for various government agencies at the state, county and municipal level. Among our membership are the career staff at the NJEIT, as well as the scientists, engineers, project review and technical staff, and support staff at the Department of Environmental Protection.

We thank our members in both agencies, the leadership at the NJEIT, and the members of this Board for their service and the important work they do. We support the mission and the social, economic, and environmental good you do to protect and improve our infrastructure, protect the environment and get shovels in the ground.

Unfortunately, we do oppose the RFQ in its current form. I understand that there are internal discussions underway between DEP and the Trust staff to clarify certain issues with the RFQ, so I will reserve our position on the final product. As written, the RFQ outsources DEP work, authority, functions, and creates potential staff loss or masking the current staff/resource needs that should be addressed.

CWA registered these concerns with DEP at the beginning of May with the Commissioner's Office and it was responsive, scheduling a call with us and then a subsequent meeting that included DEP management and Mr. Zimmer. I thank them for their time and receptiveness to meeting with us. We delineated the reasons we oppose the RFQ for both policy and staffing reasons, but no decisions were made and no action taken (yet) to remedy our concerns. I hope a continued dialogue does so.

Therefore, our opposition remains as strong today as in May and we urge the Board not to approve the RFQ.

The stated need for this RFQ is in large part an anticipated influx of new applications and greatly increased number of projects. This spike in applications could be more than DEP can add to its current workload or using outside services would accelerate the process of an application turning into an actual project.

In the past, consultants have been engaged, notably during the U.S. ARRA in 2009 and for the more recent Sandy Recovery projects. These situations are different than the current concept of an influx of new projects. Yes, NJ has a critical infrastructure need, but the new "open application deadline" policy is a change to our regular work flow, it is not a time-sensitive or time-defined project. ARRA and Sandy work was a time-defined, urgent, immediate, and perhaps "one-off" is inaccurate, but these were specific circumstances generating a specific response. We do not need outside consulting services for the "new normal" of an open application process.

CWA has met with two dozen career professionals at the DEP who work on these projects with NJEIT. They do not support the RFQ and they do not cite a need for additional outside resources to accomplish current projects or to accommodate potential influx of new ones.

Many projects that are listed in the NJEIT's database are in an initial application stage. They are not waiting on work to be done by DEP, but by the applicant to move the project forward. For example, a project may be approved and listed but not move forward because of public concerns and approvals beyond the DEP's control. From a "numbers" standpoint, these applications are listed but they are not "backlogged."

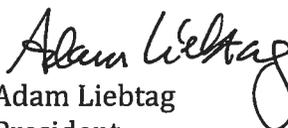

The RFQ scope of work is not limited to construction review or any specific area of a project's lifespan to help it accelerate or to alleviate resource needs at DEP. In fact, the SOW clearly includes every aspect of a project including "environmental oversight and review assistance," engineering oversight and monitoring, project management and site inspections, and progress reports. These are aspects of DEP regulatory authority and work

that is done by DEP staff. The consulting engineers would replace these functions of DEP staff.

We have several other concerns including resourcing DEP properly if there is in fact an increased work load that cannot be accommodated by exiting staff, backfilling DEP staff who leave due to retirement or other reasons rather replacing them through outsourcing, potential conflict of interest among consulting engineers since we expect that many of the respondents may represent municipalities, utilities or other applicants in the same types of projects they would review for the Trust, and ultimately whether the authority to refer a project (or portion thereof) to a consultant would rest with the Trust or with the DEP.

We ask the Board not to approve the RFQ as currently framed and we request further discussion, in detail, with the leadership of both the Trust and DEP to address these concerns. Ultimately, we do not believe that any additional discussion will delay this important work, as the RFQ has been explained as being there "if needed," and currently, DEP continues to fulfill the needs of these projects.

Thank you.

 - (a) with respect to any portion of a Relief Loan made from amounts made available to the Trust pursuant to the Appropriation, 0.00%;
 - (b) with respect to any portion of a Relief Loan made from Available Trust Revenues to a local government unit (as such term is defined in the Act), the interest rate as defined by an appropriate general obligation tax-exempt market index, as shall be selected by an Authorized Officer, which options for selection may include, without limitation, (i) the Thompson Financial TM3 “AAA” Municipal Market Data General Obligation Index (Tax Exempt) and (ii) the “BVAL” Index (relating to general obligation, tax exempt credits) of Bloomberg L.P. (or any subsidiary thereof), in any case for the number of years that corresponds to the term consisting of the period from the date of a given disbursement of proceeds of the Relief Loan to the maturity date of the Relief Loan, rounded up to the nearest year;
 - (c) with respect to any portion of a Relief Loan made from Available Trust Revenues to a public water utility (as such term is defined in the Act), a small water company (as such term is defined in the Act), any other private person, or a local government unit on behalf of any private person, the interest rate as defined by an appropriate alternative minimum tax market index, as shall be selected by an Authorized Officer, which options for selection may include, without limitation, (i) the Thompson Financial TM3 “AAA” Municipal Market Data General Obligation Index (AMT) and (ii) the “BVAL” Index (relating to alternative minimum tax credits) of Bloomberg L.P. (or any subsidiary thereof), in any case for the number of years that corresponds to the term consisting of the period from the date of a

given disbursement of proceeds of the Relief Loan to the maturity date of the Relief Loan, rounded up to the nearest year; and

- (d) with respect to any portion of a Relief Loan made from amounts made available to the Trust pursuant to a Credit Instrument, a rate to be determined by the Trust in connection with its approval of any such Credit Instrument as required, which rate shall be commensurate with the cost to the Trust of obtaining funds pursuant to such Credit Instrument for the purpose of making such Relief Loan or portion thereof.

For purposes of determining the term in order to perform the Interest Rate Calculation, as set forth above, the Authorized Officers shall calculate such term as commencing on the date of disbursement and continuing to, but not including, the maturity date of such Relief Loan, rounding up to the nearest year.

- (v) shall not exceed such principal amount as determined by the Commissioner of the NJDEP;
- (vi) may, at the sole discretion of the Commissioner of the NJDEP, to the extent any such Relief Loan is an Appropriation Loan, be subject to principal forgiveness in an amount as shall be determined by the Commissioner of the NJDEP;
- (vii) shall have a maturity date of the date of closing with respect to the applicable long-term financing program of the Trust and the NJDEP, occurring no later than the last day of the third succeeding State Fiscal Year following the closing date on which such Relief Loan is made; provided, however, that each Relief Loan may be subject to prepayment, in whole or in part, prior to the maturity date;
- (viii) shall not be subject to the imposition of an administrative fee; and
- (ix) shall otherwise qualify for funding through SAIL pursuant to the terms and provisions of the Act and provisions of this Resolution.

Section 8. Each Authorized Officer is hereby severally authorized and directed to execute (i) any Loan Instrument to which the Trust is a party (the “Trust Loan Instruments”) and (ii) any certificates, instruments or documents contemplated therein or otherwise related to the participation of any Borrower in SAIL.

Section 9. Upon execution of the Trust Loan Instruments by an Authorized Officer, the Secretary and the Assistant Secretary of the Trust are each hereby severally authorized and directed, where required, to affix the corporate seal of the Trust, and to attest to the signature of such Authorized Officer, thereon and on any certificates, instruments or documents contemplated therein or related thereto.

Section 10. At the meeting of the Board of Directors of the Trust immediately following the execution and delivery of any Trust Loan Instruments relating to any Relief Loan made to any Borrower pursuant to SAIL, the Executive Director of the Trust shall provide a report to the Board of Directors of the Trust concerning the details of SAIL.

Section 11. Each Authorized Officer is hereby severally authorized and directed to prepare and distribute, in consultation with Bond Counsel to the Trust, the Office of the Attorney General of the State and the Financial Advisor to the Trust (collectively, the "Professional Advisors"), a Request for Qualifications (the "RFQ"), to banking corporations or other similar lending institutions, to submit qualifications for consideration by the Trust in establishing a pool of firms (hereafter the "Underwriter Pool") eligible to participate in the Trust's Line of Credit Contract procurement as defined below. Section 13. Any Authorized Officer is hereby authorized and directed to take such other actions that such Authorized Officer, in his respective sole discretion after consultation with the Professional Advisors, deems necessary, convenient or desirable to affect the transactions contemplated hereby.

Section 14. The Resolution shall take effect immediately, subject to the provisions of the Act.
